A fresh graduate from UiTM, eager to learn and passionate about overcoming challenges in the field of mobile development. I thrive in environments that require critical thinking and problem-solving, as these experiences contribute to my personal and professional growth. A reliable team player, I am committed to completing tasks efficiently and effectively. Currently seeking an opportunity to begin my career in the technology industry, where I can gain valuable experience and contribute to innovative projects.

WORKING EXPERIENCE

IT Internship   Sept 2024-Feb 2025
IX Telecom Sdn Bhd, Cyberjaya, Selangor
- Managed and maintained CRM systems for costing, pricing, and task tracking.
- Developed a Meeting Room Booking Application, allowing employees to book meeting rooms and manage scheduling conflicts.
- Documented and updated commercial records, including CRM partnership guidelines, ensuring accuracy and accessibility.
- Gained hands-on experience with real-world telecommunications workflows, improving technical and soft skills, including communication and teamwork.

Kuala Lumpur Event Crew   Aug 2024 – Dec 2024
Larian Keluarga Malaysia, Garmin Run, Go Green Charity Run
- Assisted in organizing key event operations, including managing RVs, water stations, and end points for runners.
- Ensured smooth participant flow by coordinating with fellow team members and monitoring station readiness.
- Provided on-the-ground support to participants, ensuring hydration and assistance at critical points throughout the race.

Crew Cafe (Part Time)
Jalur Beringin Sdn. Bhd, Putrajaya, Selangor   Feb 2024-Mar 2024
- Provided exceptional customer service by greeting customers warmly and efficiently taking their orders.
- Managed cash transactions and maintained accurate financial records, ensuring all sales were accounted for.
- Collaborated effectively with team members to handle peak hours smoothly to enhance customer satisfaction.

Sales Agent   Dec 2021 – Sept 2022
Loveliee Empire Sdn. Bhd.
- Provided personalized consultations to assist customers in selecting skincare products tailored to their skin types and needs.
- Promoted and marketed products through online platforms, leveraging social media to increase brand awareness and sales.
- Developed strong product knowledge and maintained up-to-date understanding of skincare trends and industry standards.

EDUCATION

- **Universiti Teknologi Mara (UiTM), Chendering, Kuala Terengganu**   Oct 2021-Present
  Bachelor of Computer Science (Hons.) Mobile Computing, CGPA 3.50

- **Penang Matriculation College (KMPP), Kepala Batas, Penang**   Aug 2020-Jun 2021
  Matriculation Program - Science Module 3, CGPA 3.25

ACADEMIC PROJECTS

Lost and Found Mobile Application: Integrating
Convolutional Neural Network (CNN) for Image Recognition and Geo-location
- Final-year project to locate lost and found items in Kuala Terengganu.
- Developed and trained image recognition using machine learning to match reported items.
- Integrated Google Maps and Flask API for location tracking and item matching.

Cat Listing System

Individual Task

- Developed a responsive Cat Listing System using the Ionic Framework (Angular).
- The system features a table with ion-grid, ion-row, ion-col and a search bar for filtering cat breeds.
- Implement Cat Facts API integration to dynamically display breed data.

Certificate Generation System for Canvajer Program

Collaborative Coursework Project with SK Chendering

- Participated in the development of a certificate generation system for the Canvajer Programme.
- Designed and implemented a solution to automatically generate certificates for students in Standard 5 and 6.
- Worked alongside a team to ensure smooth integration and data management for the certificates.

Chores Hiring Mobile Application

Mini Group Project

- Developed a mobile application for hiring cleaning services, focused on home chores and cleaning tasks.
- Integrated Firebase for real-time database management and payment methods for secure transactions.

Wearable Posture Correction System

IoT-Based Project

- Led the technical development using a flex sensor and Arduino to detect posture abnormalities.
- Responsible for system testing, debugging, and calibration of the flex sensor to ensure accurate bend detection.
- Conducted thorough testing and calibration to provide real-time feedback to users on posture correction.

ACHIEVEMENT

Dean's List Awards (Bachelor of Mobile Computing)

- Achieved a GPA of 3.5 and above in semesters 1, 4 and 5.

Leadership and Organizational Roles

- Head of Systems Audit for the University's Audit Club (2022/23).
- Organized a Career Talk: Internship Etiquette for UiTM Kuala Terengganu (2023).
- Assisted in handling the company Annual Dinner event, recognized for contributions by the CEO (2024).

Certifications and Professional Development

- Completed Datacamp Data Analyst with Python course (2022).
- Completed Cisco's Introduction to Packet Tracer course (2024).
- AWS Flash Introduction to Responsible AI (2025).
- HRD-Corp e-Latih Building a Website from Scratch with HTML and CSS (2025).
- HRD-Corp e-Latih Cyber Security Thread Management Masterclass (2025).

TECHNICAL SKILLS

- **Programming Languages:** SQL, Java, C++, HTML, CSS, PHP, Python
- **Frameworks & Libraries:** Laravel, Flutter, Vue.js
- **Data Science:** Machine Learning, Data Visualization, Data mining with RapidMiner
- **Software & Tools:** Android Studio, Firebase, Cisco, Oracle, MySQL, phpMyAdmin, Visual Studio, Laragon, Figma, Wordpress
- **Microsoft Office:**
  Word & Powerpoint: Expert
  Excel: Intermediate
  Access: Basic

LANGUAGES

- **Bahasa Malaysia:** Native proficiency
- **English:** Intermediate proficiency
